# Holey Donuts!™

## Ultra Low Fat Gourmet Donuts!

We wanted you to know why our donuts are different, and rather special. The secret lies in our unique \*patent - pending cooking process which avoids deep frying like traditional donuts, deep frying produces a fatty, greasy donut with between 15 and 20 grams of fat in 1 donut! (\*By Comparison traditional varieties of yeast donuts - pack 300 to 390 calories and 20 grams of fat EACH!)

You could actually eat a box of six of our Amazing Boston Creme Filled Chocolate Frosted Donuts and have LESS FAT THAN 2 KRISPY KREME DONUTS! Holey Donuts!™ produces a light fluffy gourmet donut that you'll love! With only 4 grams of fat(or less!) per donut! Our large gourmet donuts are made in small batches by hand all day long. We use unique formulas that we mix from scratch using the finest ingredients available. Pure ingredients like ,fruit, sugars, eggs, yeast and flour, and we never add artificial sweeteners or chemicals to our donuts.

All done with great care to guarantee you always get a fresh "just made" donut.

## 212 566 0434

Please never consider our donuts "diet" ~ we made 'em this way so we could all eat more donuts!

## Holey Donuts!™

## Holey Donuts!™ Artisan Roast Coffees

We could go on and on about how we only roast the world's finest Arabica beans in an unhurried, old-fashioned way to unlock the bean's maximum flavor and aroma, etc.... but who has time for that, and honestly, it's boring. So I'll leave you with our simple guarantee - the best, freshest coffee you've ever tasted or your money back.

At Holey Donuts!™ we know coffee is fresh produce, not a can of beans.
